Important Information About Your Drinking Water

MONITORING AND REPORTING VIOLATION

Este informe contiene información importante acerca de su agua potable. Haga que alguien lo traduzca para usted, o hable con alguien que lo entienda.

Date: 12/20/17
PWSID: CT1250011
To: The Customers/Residents of Sharon Water & Sewer Commission
From: Sharon Water and Sewer Commission

Our public water system recently violated drinking water monitoring and reporting requirements. As a supplier of public drinking water, we are required to monitor the water quality of our water supply to insure that it meets the current drinking water standards. Failure to conduct monitoring and/or report results of such monitoring to the State Department of Public Health Drinking Water Section constitutes a violation. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. We did not monitor or test or did not complete all of the monitoring or testing for the requirement(s) listed below and therefore cannot be sure of the quality of our drinking water during that time.

- Carbaryl (WSF ID: 00700; Monitoring Period: January 1, 2014 - December 31, 2016)
